

# Next-Gen Phone Systems: Elevating Hospitality Customer Service

Deliver 5-star Customer Experiences with Seamless Integration

Upgrade your customer's hotel communications infrastructure with the Yeastar and Snom Hospitality Solution. This integrated system offers a comprehensive range of features tailored to meet the unique needs of hotels, resorts, and similar establishments. By combining Yeastar's powerful P-Series Phone System with Snom's specialised hospitality phones, you can enhance guest satisfaction, streamline operations, and increase efficiency.

## Yeastar Hotel Phone System

Trusted by hotels worldwide, Yeastar's P-Series Phone System offers unparalleled reliability and functionality. Seamlessly integrate with popular PMS systems, enhancing staff efficiency and guest satisfaction. Your client can enjoy features such as guest name display, room status updates, and automated call accounting. Use existing hotel phones with plug-and-play compatibility, reducing setup time and costs.

## Snom Hospitality Phones

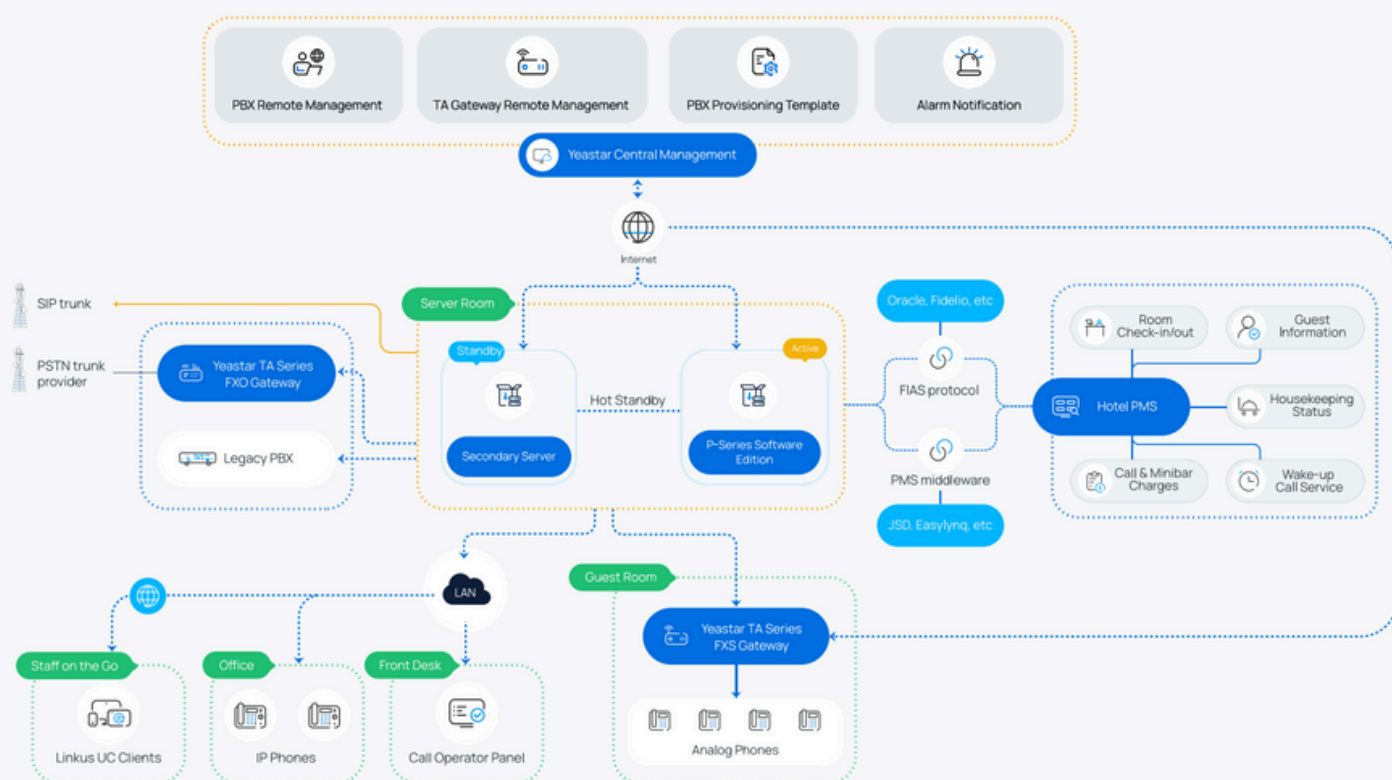

Choose from a range of specialised hospitality phones including the HD 100, HD 351W, and HM201, each designed for comfort, functionality, and style. Features include hands-free calling, antibacterial housing, large displays, and customisable key functions. Ensure guest privacy and data security with DSGVO-compliant design and remote maintenance.

## Key Features

- **Easy-to-Use Integration:** Seamlessly integrate Yeastar's P-Series Phone System with Snom's hospitality phones for effortless communication management.
- **Cost-Effective Solution:** Maximise your investment with a solution that leverages existing infrastructure, eliminating the need for costly phone replacements.
- **5-Star Guest Experience:** Elevate guest satisfaction with personalised services, streamlined operations, and reliable communication tools.
- **Full Hospitality Features:** Enjoy a comprehensive set of hospitality-centric features including guest name display, wake-up call scheduling, room status updates, and more.
- **PMS Integration:** Integrate with popular Property Management Systems (PMS) such as Oracle Hospitality Opera and Micros Fidelio for automated front desk and housekeeping functions.
- **Guest Room Comfort:** Equip guest rooms with Snom's specialised hospitality phones featuring modern design, antibacterial housing, and intuitive user interfaces.
- **Compliance:** Ensure compliance with data protection regulations such as GDPR with secure, DSGVO-compliant design and remote setup and maintenance exclusively via servers in Germany.

## How it Works

The topology demonstrates how Yeastar hospitality solution connect hotel IT infrastructure and empower a smoother communications and workflows.

## Why Choose Yeastar and Snom?

- **Industry-leading Solutions:** Trusted by hotels worldwide, Yeastar and Snom offer industry-leading solutions that guarantee reliability and performance.
- **Enhanced Guest Satisfaction:** By streamlining operations and delivering personalised services, the Yeastar and Snom Hospitality Solution elevate guest satisfaction to new heights.
- **Cost-Effective Integration:** With easy setup and maintenance, coupled with the ability to leverage existing infrastructure, this integrated solution promises a cost-effective approach to upgrading your hotel's communication system.
- **Compliance and Security:** With features designed to ensure compliance with data protection regulations and prioritise guest privacy, Yeastar and Snom offer peace of mind in an increasingly regulated environment.
